

2006 *GREEN EGGS & SAND* Workshops

Looking to infuse a globally-significant ecological phenomenon and current real-world resource management controversy into your classroom?

Interested in meeting and learning firsthand from a select and diverse group of experts and stakeholders offering a wealth of knowledge and experience with the issues?

The Green Eggs & Sand team is offering three full weekend workshops along the Atlantic coast for spring of 2006.

Participants take home the middle/high school-targeted, national-standards-keyed, video-and-activity-rich, GE&S curriculum package.

Approximate number of students you reach annually: ☐ <25 ☐ 25-50 ☐ 51-100 ☐ >100 (specify)

Mailing address _____

Phone _____ E-mail (please print clearly!) _____

Briefly describe your interest in the Green Eggs & Sand workshop and what you hope to get out of the experience.

The Green Eggs & Sand workshop commences with dinner Friday evening, May 19 and ends at noon on Sunday May 21. In addition to sessions featuring expert presenters on horseshoe crabs (HSCs), shorebirds, biomedical use of HSCs and HSC management, there will be Friday night and Saturday afternoon field trips to nearby Delaware Bay beaches to observe HSC spawning and shorebird feeding, and to meet a local commercial fisherman who uses HSC's for bait. For further information about the workshops, read the GE&S FAQ's attached.

Lodging for the workshop is provided at the ARE Center's Mallard Lodge in the Woodland Beach Wildlife Area east of Smyrna, DE. This facility features rustic shared bunk rooms of varying sizes (6-12 beds/room), and common bathroom/shower facilities. The Lodge sleeps 40, the beds are probably not as comfortable as most are used to, rooms are not air-conditioned, and the hot water heater doesn't always keep up with the demand. Although these and other conditions may challenge the comfort level of those who are accustomed to more privacy, the trade-off comes in being on-hand after hours to socialize and network with the various experts and fellow participants staying at the Lodge. For those who seek alternative accommodations, a list of motels (in the Dover area) is available. Reservations for such are to be made by the participants at their own expense, and it should be understood that this does not reduce the workshop registration fee. Fees for the workshop (which covers all meals and materials) is \$50. Checks should be made payable to: Delaware Division of Fish and Wildlife, and are required, along with this completed form - to reserve your space for the workshop. Please indicate your lodging preferences, along with any special dietary or accomodation needs in the spaces provide below.

☐ I would like to reserve a bed at the Mallard Lodge.

☐ I will reserve my own lodging elsewhere for the weekend.

☐ I require no special dietary or accomodation needs

☐ I have the following dietary and/or accomodation needs (please specify):

Return form and check to: GE&S workshop registration, Aquatic Resources Education Center, 4876 Hay Point Landing Road, Smyrna, DE 19977; direct all inquiries to Gary Kreamer at: (302) 653-2882 x114, gary.kreamer@state.de.us
Deadline for submission is March 31, 2006. Reservations will be made on a first-come-first-serve basis.
